

W002.98 RPET Bottle Transparent 500 ml drinking bottle

Wow! This drinking bottle is made from 100% recycled PET bottles. Capacity 500 ml. Choosing RPET means saving of 75% on fossil fuels during production, and another 5% during incineration. Plastic, including polyester, is made from petroleum. Recycled plastic products reduce CO2 emissions by 70%. Recycled polyester uses 90% less water than regular polyester, and recycled bottles don't end up in the ocean. Recycling creates a lot of jobs globally. RPET delivers the same high quality and comfort that you're used to. With the purchase of this product you support Plastic Bank® - an international organization with two main goals that concern us all: reducing poverty and reducing the plastic soup in the oceans that is an environmental catastrophe. Plastic Bank® pays people in developing countries to collect the plastic from the 5 most polluting rivers in the world. From this plastic waste, which therefore no longer ends up in the oceans, the so-called RPET material is made, which may bear the Social Plastic® label.

Features

- Catalogue: Collection 2022
- Material: RPET
- Statistic number: 3924900090
- Shipment date without imprint: 1 Working day(s)
- Catalogue Page No. : 7
- Country of origin: NL
- Minimum Order Quantity: 48
- Dishwasher safe: No

Imprint options

Imprint options	Maximum size in mm	Imprint technique	Max. number of colours	Printing and handling costs codes
all around	140 x 80	silkscreen print	1	S4 - H3

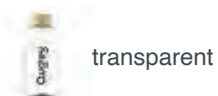

Packaging

- Sizes export box: 40 x 44 x 25 cm
- Weight export box including volume: 2.5 kg
- Number in export box: 48 pieces
- Quantity on pallet: 672 pieces
- Packaging per item: No
