

W112.98 Coffee Travel Mug 250 ml coffee mug

Wow! A coffee travel mug with lid made from coffee grounds and sugarcane! What could be better to turn into a coffee cup than the very ingredients that go into making the drink... coffee grounds and sugarcane! The cup even smells like coffee, which adds to the sensory experience – whether it's to wake you up in the morning or to give you that bit more energy in the afternoon. The Coffee Based material is a mixture of used coffee grounds and sugar cane ethanol. The used coffee grounds are a waste stream from the coffee industry or office environments. Capacity 250 ml. Each item is supplied in an individual brown cardboard box.
